

Participate in a Study on AI Accountability in Medical Radiations Science.

We invite international medical radiations professionals—Diagnostic Radiographers, Radiation Therapists, Nuclear Medicine Technologists, and Sonographers—to participate in this study. The research explores how the integration of AI systems influences professional perceptions of responsibility, and decision making. Your participation will help shape future policies and training programs that ensure ethical and responsible AI usage in medical imaging and therapy.

What's Involved?

- Complete a brief, 10-minute survey.
- Provide feedback on a scenario involving AI in clinical practice.
- Share your thoughts on professional responsibility in light of AI integration.

How to Participate:
