

Are you an AHP working in a rural or coastal area?

UNIVERSITY OF
LINCOLN

We are looking to interview Allied Health Professionals working in rural and coastal areas in England as part of a research study to identify solutions to recruit and retain the AHP workforce in these areas.

Our findings will be shared with NHS-England and AHP bodies to help them improve recruitment and retention of allied health professionals

To set up an interview over Teams, please click on the QR code or email
