

Join our Research Study: Early Integration of Innovative Technology in Non-Surgical Oncology: A Sociocultural Study on advancing UK Cancer Care through Timely Adoption

Invitation: Join our Study: Seeking advanced & expert clinical practitioners and department heads supporting non-surgical oncology who utilise technology. Your insights are pivotal in uncovering influencers and procedural aspects shaping technology adoption and user experience.

Focus: As part of the Doctor of Business Administration program at the Bristol Business School, this research aims to unravel barriers and facilitators impacting technology adoption in cancer care, thus shaping the future of UK's health system.

Your input matters. Take the survey to make a difference in shaping the future of UK cancer care.
